hereby support the Motion For Extension To File Reply Comments filed by SMR WON dated January 11, 1995. These parties agree with SMR WON that the complexity of the matters contained within the original and voluminous comments require thoughtful and thorough examination which cannot be reasonably accommodated within the present time period. The sheer number of comments alone make substantive examination and analysis difficult, if not impossible.

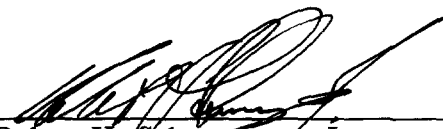

Each of the above named parties has submitted original comments, expressing each commenter's extreme interest in the outcome of this proceeding and the possible effects that adoption of the proposals might have on their businesses. Their comments in support also reflect their desire to continue to provide the Commission with individual, meaningful comments to this matter.

² In the interest of efficiency, all of the parties above join in support within this single document.

Accordingly, to assist the Commission in its securing of meaningful comments to the instant matter, the above-named commenting parties fully support SMR WON's motion.

Respectfully submitted,

By
